

Profiles

 Divanshiv

 Divanshiv Kumar

Summary

**Frontend & Full-Stack Developer** with hands-on experience in **MERN stack** and **Django**, skilled in building scalable, user-centric web applications and integrating complex RESTful APIs. Proven ability in **debugging**, **system maintenance**, and delivering projects collaboratively within agile environments. Passionate about clean UI/UX, performance optimization, and continuous learning.

Education

D.A.V. Centenary College, Faridabad, Haryana

Computer Science

<https://davccfbd.ac.in>

July 2019 - August 2022

Bachelor of Computer Applications

Central Board of Secondary Education

Commerce + IT

Batch 2018-19

Senior Secondary

Experience

Personiv (an eclerx company)

IT Engineer

January 2023 - February 2024

Gurugram

- Provided end-to-end technical support for 300+ users, resolving hardware, software, and network issues using **ManageEngine**, resulting in a **20% reduction in average ticket resolution time**.
- Monitored and maintained IT infrastructure to ensure smooth, secure, and uninterrupted daily operations.
- Assisted employees with system installations, software updates, troubleshooting, and access management.
- Received an appreciation email from Senior Trainers for consistently delivering timely and effective support.
- Collaborated with the IT team to manage user access controls, perform data backups, and enforce security protocols.

AI Model Training

AI Model Training Intern

December 2024 - March 2025

Faridabad

Under the Guidance of Poonam Rani

- Selected for a **mentorship-based internship** under **Poonam Rani**, an experienced software developer and AI model trainer.
- Assisting in a freelance AI project titled **Meta-LMSYS-Steerability**, focused on training and evaluating steerable AI systems.
- Learning to **evaluate AI model outputs**, improve model behavior, and perform prompt-based testing and tuning.
- Gaining practical exposure to **AI development workflows** while building a strong foundation in **model alignment and system adaptability**.

Certifications

Python

Bal Bhawan Institution, Faridabad

June 2022

Django

GeeksforGeeks

<https://media.geeksforgeeks.org/courses/certificates/1cc9b1d4fec962e5a0b094e1e328e11c.pdf>

August 2024

Data Science BootCamp - From Analysing Data To Creating ML Models

GeeksforGeeks

<https://media.geeksforgeeks.org/courses/certificates/dc679d5477d3bd9bbd8dde1d8f783bfb.pdf>

January 2025

Full Stack Development with React & Node JS - Live

GeeksforGeeks

April 2025

Projects		
Unit Converter		September 2024
Tech Stack: HTML, CSS, JavaScript		
<ul style="list-style-type: none"><li>Built a responsive <b>Unit Converter</b> web app to convert between different units of measurement like length, weight, and temperature.</li><li>Designed intuitive UI with <b>HTML &amp; CSS</b> and implemented dynamic conversion logic using <b>JavaScript</b>.</li></ul>		
PhotoFlix – Image Gallery App		October 2024
Tech Stack: React.js, Tailwind CSS, Unsplash API		
<ul style="list-style-type: none"><li>Created a <b>frontend image gallery</b> using <b>React.js</b> and <b>Tailwind CSS</b>, allowing users to view and explore images fetched from the <b>Unsplash API</b>.</li><li>Implemented <b>search functionality</b> to retrieve photos based on user input.</li><li>Designed a clean, responsive UI with <b>Tailwind CSS</b>, featuring <b>grid layout</b> and <b>hover animations</b> for a better user experience.</li><li>Used <b>React hooks</b> for state management and <b>API handling</b>, ensuring smooth data fetching and rendering.</li></ul>		
Spotify Clone		January 2025 - February 2025
Tech Stack: React.js, Node.js, Express.js, MongoDB, CSS		
<ul style="list-style-type: none"><li>Built a full-stack music streaming web app inspired by Spotify, featuring <b>user authentication, playlist creation, and music playback</b>.</li><li>Developed frontend with <b>React.js</b> and backend APIs using <b>Node.js &amp; Express</b>, with data storage in <b>MongoDB</b>.</li><li>Implemented <b>JWT authentication</b>, responsive UI, and dynamic routing for a seamless user experience.</li><li>Focused on <b>component reusability</b>, clean UI design, and API integration for scalable performance.</li></ul>		
Travel APP		March 2025 - April 2025
Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS		
<ul style="list-style-type: none"><li>Developed a full-stack travel booking application allowing users to <b>search destinations, view packages, and manage bookings</b>.</li><li>Designed a clean, responsive <b>frontend using React.js and Tailwind CSS</b>, focusing on seamless navigation and user experience.</li><li>Built RESTful APIs with <b>Node.js and Express.js</b> to handle user data, booking logic, and package management.</li><li>Integrated <b>MongoDB</b> for storing trip details, user accounts, and booking history.</li><li>Implemented <b>user authentication and secure session handling</b> using JWT.</li><li>Added filtering, sorting, and search functionalities for enhanced user interaction.</li></ul>		
Skills		
Frontend	Backend	Database
React.js, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)	Node.js, Express.js, Django, REST APIs	MySQL, MongoDB
Tools	Others	Soft Skills
Git, GitHub, VS Code, Postman	JWT, Debugging, Deployment	Communication, Teamwork, Problem-solving, Adaptability
Interests		
Traveling, Road Trips, Exploring Places, Watching Films & Anime.		
Languages		
Hindi	English	
Native	Advanced
